

TRC Meeting Sept. 19, 2003

The meeting began at 5:00 p.m. at the Town Hall. Present were Seth, Kitty, Izzy and Priscilla. It was noted that there has been an increase in hits on the web site. The average is 265 per day over the 193 per day of last month. We are becoming quite popular. Top searches appear to be autumn pictures and the new region maps.

Project up dates

Kitty is working on the Ebeemee Community information. The Printable Region Maps have been completed by Seth and are on line. The Farm Stand project will be worked on later on for next year. Seth announced that an upgraded Internet connection will be coming for our site. This will make access a lot speedier.

Site changes and Current Projects

New Guestbook changes are coming. A few have been made already and we can expect more as time goes by. Blank posts will no longer be added to the guestbook to have to be removed later. All posts will be archived in separate files.

Local directory updates are Melissa's project and we are awaiting word from her on her progress. Priscilla will be working on the organization contact info and will have that information as soon as possible.

Board Member Maintenance is under way and Priscilla is working on that project. This involves cleaning out duplicate accounts and those with defunct email addresses. We would like people to use their real names on their account so that anyone wanting to contact them may do so. Especially those who now live away and want to be incontact with friends from the local area.

Promotional Plan is being worked on at this time. Kitty has created an out line that will need to be filled in with information.

We have two weeks to register the web site so need to notify Val of this fact.

Organization Minute Reminders. Ways to get minutes from the meetings of various organizations to post on the site were discussed. We would like to have someone from each organization email or fax the minutes to us after each meeting. We would especially like to have the meetings from meetings held by the various town selectman in the area.

"Three Rivers Alliance Corner" A regular article to go in the Three Rivers News is planned. Would contain infor about the site, updates and odd bits of interesting information from around the area. We would take turns writing this

article.

School Sports Calendar. We have the sports schedule but getting the scores is another matter. We have been able to get some scores from the Bangor Daily News but unfortunately they do not publish the girls scores. And nothing about golf. We need a source for this information.

Other Business

The Bylaws are still on hold for the time being.

Free Advertising for TRCMaine was discussed and it was agreed we need to get this done. Let people know we are here and ready to serve them.

The meeting was ended at a little after 6:00 p.m.
