

## Milo Fire Fighters' Auxiliary

40 Park Street  
Milo, ME 04468

March 8, 2017

Dear Fellow Fire Fighters,

We need your help! Milo and Brownville Fire Department's Auxiliaries are teaming up to host a Dinner and Dance to benefit the Fire Training Facility located in the Industrial Park in Milo.

Milo Fire Department has been working hard the last couple years to build a training facility. They presently have 2 pods; One 40 foot container for Search and Rescue and one 20 foot Burn Container. These have recently been used, for a class, held by the Basic Fire School. Which involved 30-40 people; including 20 students from various departments, also, 10-20 presently trained fire fighters that assisted with the class. This was also a good refresher for them. These pods were either donated or purchased with grant money. Milo Fire Department are working to get five more containers in various sizes, as well as, run a line for water and have a hydrant on site. They would like this facility to be accessible by all neighboring fire departments.

Please come join us, April 29, 2017 at the Brownville Junction Legion/Alumni Building, Railroad Ave., Brownville Junction. Spaghetti Dinner will be 4:00 pm to 6:00 pm; Dance starts at 8:00 pm with the band Junction Express, BYOB. The cost to both is by donation. We will also be having a 50/50 and Basket Raffles.

If you have any other questions regarding the training facility you can contact Milo Fire Department at 943-2303.

Sincerely,

Milo and Brownville Fire Department's Auxiliaries
