## Pine Tree and Village Cemeteries

### NOTICE

By October 15<sup>th</sup> of each year all summer flower arrangements including plastic flowers must be removed from the Cemeteries. Any arrangements left after that date will be removed by the Cemetery Maintenance Crew. Vases, flower pots, baskets etc. will be saved at the grave site until the following Memorial Day. Any containers left after that date will be destroyed. Winter arrangements such as evergreens with or without pointsettia, ruskus etc. and wreaths may remain all winter. These winter arrangements will be destroyed by the Sexton during spring clean up. This action is necessary to eliminate the accumulation of bouquets etc. after they have lost much of their beauty. Most people find flower arrangements that have started to fade or flower holders that have started to deteriorate, to be offensive, and will thank our Cemetery Crew for removing them. However, to eliminate any misunderstanding, this procedure outlined above, will be in effect for the entire cemeteries.
